Published every evening, Sunday excepted, by the Tonopah Bonanza Printing Co., Incorporated.

MEMBER ASSOCIATED PRESS MEMBER NEVADA PRESS ASSN

W. W. BOOTH, EDITOR AND MANAGER

Terms of Subscription by Mail for Daily Bonanza:  
 One Year.....\$12.00 Three Months.....\$3.50  
 Nine Months.....9.00 One Month.....1.00  
 Six Months.....6.00 One Week......30  
 Delivered by Carrier, \$1.25 per Month.

## TO SUBSCRIBERS.

Parties who do not receive their papers, or who have any cause for complaint, will oblige The Bonanza by notifying this office.

## \$10 REWARD.

A reward of \$10 will be paid for information that will lead to the arrest and conviction of parties stealing The Bonanza from subscribers.

All legal advertisements will be charged for at the rate of \$2.00 per square for the first insertion. There will be no exception to this rate. No affidavit at publication will be made until the advertisement is paid for.

No advertising cut, one square inch or smaller, will be accepted unless made of metal. No wood base cuts this size will be used. Wood cuts are dangerous to forms and press.

Entered at the postoffice in Tonopah as second-class matter.

## THE WINTER OF OUR CONTENT

THE frost that shows on the roofs in the early morn, the keen bite of the air at dawn, the calmness of the air, the intense steel blue color of the sky, all these are evidences that winter is approaching and with it will come the fuel bills, the additional activities of the electric light meter and other expenses that attach to the season of cold.

Looking back a year it will be remembered that Tonopah was not in the best of shape to meet winter conditions. The low price of copper had closed mines and smelters that produced the red metal and as a consequence hundreds of men came to Tonopah in search of work. There was an anarchistic propaganda afloat and everybody was uneasy. Many families were depending for support upon miners who failed to obtain work. Hundreds were "rustling" at each shift change. It was not a pleasant prospect, the winter that had to be faced.

But merchants were lenient, even liberal, and house owners were likewise. Organizations, planned solely or partly for benevolence, did their part nobly and in some manner the winter was passed through without the suffering that was anticipated. The mines ran their full quota, the mills were full handed and there was a sharing and bearing that proved the spirit and the heart of Nevadans.

Now comes another winter and we are much better prepared. The war has withdrawn many aliens and given others, those with families dependent upon them, employment. There are few men rustling at shift change. The copper mines are resuming and the surplus labor has been drawn away. With the present outlook for an improved price of silver, with the physical conditions so good in the mines and with other conditions so favorable, Tonopah may look forward to the approaching season as the winter of its content.

## ERA DAWNS FOR GENTLEMANLY LADIES

IT WAS quite a slam on the gentler sex to have it advised by Mrs. William Kent at a meeting of the Congressional Union in San Francisco, to "behave like gentlemen." Observe the gentle sarcasm of this admonition. The ladies, God bless 'em—for that is the chivalrous thing to say—have now gotten all they want, at least temporarily, out west. There is no longer a black Nevada on the suffrage map. They can vote as early and as often as their little hearts desire. They can be policemen, poundmasters, mayors, governors and grafters. They may take the reins of government and drive said government into the ditch if they find it advisable or desirable. In fact they can do anything except pay poll tax. It is lucky that this is not enforced upon them, for it would mean an additional burden upon the now thoroughly abashed head of the family, who would be called upon to settle for the aforesaid tax. They may serve on juries, but it is held in Nevada that it is not obligatory.

So much for unequal suffrage, which gives everything and requires nothing. Yes, the Bonanza is in perfect accord with Mrs. Kent: Let the ladies behave like gentlemen, and let them also pay and serve like gentlemen. They are off the pedestal and are down in the common herd and by their own wish and act. Let's proceed now to make the equally equal. Ladies and gentlemen, you have equal privileges, now for equal responsibilities.

## WHITE METAL FAMINE NOW IN SIGHT

IT IS rather disconcerting at first glance to learn that the copper mines of Montana, when they are in full blast, produce more silver as a by-product than do the mines of Tonopah, where silver is the predominant metal. It is also shown in the government reports that the copper mines in the Lake Superior region yield an average of a dollar a ton in gold, also a by-product. Well, we mustn't be jealous of our neighbors.

The demand for gold is never ceasing and the price is unvarying, while the moving picture industry alone is able to take care within the next five years of all the silver that is now stored, using it in the form of nitrate, where it is lost forever, and must be re-supplied; while the demand for subsidiary coinage in the United States is increasing, while the mines of Mexico will not be able to resume in any kind of shape within half a decade and while the silversmiths of Europe will shortly resume operations and coinage will be demanded to the extent of a billion dollars or more to replace the fractional currency that is now being issued by the ton abroad.

No, Butte, go to it with your by-product. Get all the gold you can out of your copper, Calumet & Hecla. Nevada knows that it has nothing to fear in the white metal market of tomorrow and of the other tomorrows to follow.

## BEFORE WE CAN HAVE PROSPERITY

THIS country will again enjoy prosperity, but in not anything like satisfying measure until the faulty fiscal policy under which it has been operating these last three years is cast into the discard and congress writes into the law of the land a protective tariff that will render unnecessary the collection of taxes directly out of the pockets of the people.

In other words, we can't run under a wrong policy and get the right sort of results. That has been made as plain as way to parish church. We have first got to protect our home markets and our home factories before we can have a prosperity that is both satisfying and permanent. This proposition has been proven true every time the free traders have come into power and put the opposite theory into practice. In Buchanan's time it was demonstrated to a fare-you-well. So was it in Grover Cleveland's time. So it is in our own time.

## CLIPPED AND CREDITED

Our boundary on the north is recognized as strict neutrality and on the Texas border it looks like a boll.—Pittsburg Post.

A farmer likes to make laws regulating the city man, and one of the joys of the city man is to regulate the farmer.—Toledo Blade.

## TRY IT-- IT TASTES GOOD

Castor oil is a valuable remedy, but it has always been looked upon with disfavor because of its greasy, nauseating taste. If you would have an oil with the real effect and with the odor and taste disguised, as our "Nyal's Pleasant Castor Oil." Children can easily be fooled with it. In fact, they like it. It does not grip. Keep a bottle of it in your medicine cabinet. Price 25 cents.

PROUTY'S UNION DRUG STORE

A Missouri widow has sued a newspaper for declaring that her husband "has gone to a happier home."—Spokane Spokesman-Review.

National defense can become a partisan issue only by the failure of one of the parties to perceive its importance.—Philadelphia Ledger.

Instead of turning swords into plowshares, a peaceful nation reserves the privilege of turning munitions of war into gold and securities.—Washington Star.

## Mining News in Briefest Shape

The Ophir Mining company, of Virginia City, T. F. McCormick, superintendent, has resumed work in the operation of its property and is developing a body of quartz on the 2500 foot level.

The Mt. Helena Development company, of Contact, Robert McShane resident manager, is having a group of seventeen claims surveyed for patent. S. P. Snider of Minneapolis is president of the company.

The Nevada-Dividend Mining company, N. L. Morrison of Salt Lake, manager, will soon make a carload shipment of high-grade lead ore. The company's property is located near Mad Springs, 25 miles from Currie station.

The Consolidated California Mining company of Bristol, near Pioche,

which recently took over the noted Day-Bristol mines, has started active work in the operation of its property under the supervision of George E. Bent.

Phil Blume and Carl Stofelt of Winnemucca have taken a working lease in the new camp of Divide, not far from Tuscarora. The discoverer of the new district was J. L. Workman, at one time closely identified with the mining interests of National.

The Panaca Mining and Smelting company of Pioche has been incorporated with a capitalization of 1,000,000 shares of \$1 each. The incorporators are William S. Stearns, James R. Masury, F. C. Gurney, George W. Kimball of Newton, N. H.; Fred P. Hill of Plainfield, N. H.; Herman Wenschke of Roxbury, Mass.

## COPY MUST BE IN EARLY

Last Saturday a church notice was handed in to the Bonanza office, but it failed to appear. Today there will probably be one or two left out again, and the reason is here stated, and in the plainest possible language. This paper devotes columns of space each week to publishing news that is on the verge of being advertising matter, but makes no charge. It does it for the benefit of the people who bring in the communication. It makes one request, and has made it oft before, and that is that the copy be gotten in early, the evening before the day of publication if possible. This paper cannot afford to sidetrack Associated Press dispatches to make room for charity ball notices and church items an hour or two before the time for going to press.

## MULE POWER ON ORE CARS

It was amusing and interesting to watch the manner in which a mule was strapped, packed and caged last evening and then lowered down the Belmont shaft. He didn't seem to enjoy the experience a bit, and it will be a long time before he breathes the open air again, so you can't blame him. There are now five mules engaged in pulling ore cars in the depths of the Belmont.

## MAY UNDERGO OPERATION

Rev. Percival S. Smith, rector of the Episcopal church at Las Vegas, was to have conducted services tomorrow in St. Mark's church, but a wire from him this morning states that he is ill and may have to undergo an operation for appendicitis, so he will not be here tomorrow. Rev. Mr. Smith is now at Pomona, Cal. He hopes to be with the congregation again in October.

GEORGE A. KERNICK, principal owner of the Hasbrouck, and heavily interested in other mining properties here and in Goldfield, left this morning for Reno and the coast. He will be gone about two weeks.

1915 NEVADA 1915

ANNUAL AT FALLON 1915

STATE FAIR

SEPT. 20TH TO 25TH, INCLUSIVE

\$5000 In Premiums on all \$5000

## Nevada First National Bank of Tonopah

Capital, \$100,000.00

## ANNOUNCEMENT

The following prices f. o. b. Detroit, effective August 2, 1915:

Ford Runabout	\$390.00
Ford Touring Car	440.00
Ford Town Car	640.00

No speedometer included in this year's equipment, otherwise cars fully equipped.

There can be no assurance given against an advance in these prices at any time. We guarantee, however, that there will be no reduction in these prices prior to August 1, 1916.

## Profit-Sharing with Retail Buyers

On August 1, 1914, we made the announcement that if we could make and sell at retail 500,000 Ford cars between Aug. 1, 1914, and Aug. 1, 1915, we would share profits with retail purchasers to the extent of from \$40 to \$60 on each car.

We have sold over 300,000 Ford cars in the time specified, and profit-sharing checks of \$50 each will be distributed as rapidly as possible after August 15, 1915. Retail purchasers who have not yet mailed us their profit-sharing coupons, properly endorsed, should do so without delay.

Our plan to profit-share with retail purchasers of Ford cars during 1914-15 has been most successful. We thoroughly believe in it, but, realizing the uncertainty of conditions generally makes it advisable to defer any announcement of future profit-sharing until a later date.

We are, however, confident of our inability to reduce costs for several months, and therefore can offer no profit-sharing for cars delivered during August, September and October, 1915.
